

A full-page background image of a lush green forest. A narrow, reddish-brown path or railway track leads from the bottom center towards the horizon, disappearing into the dense foliage. The trees are tall and their leaves are a vibrant green, creating a tunnel-like effect.

# INVEST IN RIVNE REGION

[WWW.RIVNEREGION.COM](http://WWW.RIVNEREGION.COM)

**NOW**  
**Ukraine**

ua

Rivne Oblast (also Rivne region or Rivnenshchyna) is a promising region for investors. The favourable geographical location at the crossroads of the Trans-European Motorways, well-developed transport and social infrastructure, significant manufacturing, resource, employment, and tourist potential create the preconditions for the dynamic development of the region.

The Regional Development Strategy until 2027 provides for the implementation of a set of tasks, programmes and projects, the end result of which is to ensure leadership of the Rivne Oblast in the North-Western region of Ukraine in forming a competitive economic complex based on SMART specialisation, to ensure balanced development of territories and capable communities, as well as to create favourable conditions and equal opportunities for doing business and personal self-fulfilment of inhabitants.

In order to implement these ambitious plans the region foresees such decisive factors as encouragement of attracting investments and ensuring favourable investment climate in the region. Toward this end, the region implements appropriate regional programmes and actions, which are funded, among other resources, through targeted funds of the regional budget. The region attracts specialised agencies that were initially created by the Regional State Administration and the Regional Council to intensify the investment activity, in order to implement these programmes and actions. The Investment Council of the region, as the leading counselling and advisory body in the given field, includes the heads of all leading companies of the region. The region also actively cooperates with financial institutions and international assistance projects.

This investment passport is an integral part of the regional investment policy. Its task is to inform investors about the potential and prospects of Rivne region development.

The regional authorities are open and ready to cooperate. Rivne region is the territory of equal opportunities!

# INFRASTRUCTURE

## Railway Service

The region has a developed network of public railways with a total length of 737.4 km. The Rivne station is located on the Zdolbuniv-Kovel and Zdolbuniv - Sarny lines. Zdolbuniv and Sarny railway junctions are one of the largest stations in western Ukraine. Zdolbuniv railway station has direct connection with 9 regions (Oblasts) of Ukraine.

**Railway junctions:** Rivne, Zdolbuniv, Sarny, Dubno, Radyvyliv.

## Bus Stations

There are two bus stations that operate in the city of Rivne, namely: Rivne Bus Station (vul. Kiyivska, 40) and «Chayka» Bus Station (vul. Haharyna, 16b). They provide international, interregional, long distance and suburban transportation services.

## Passenger Capacity

- passenger traffic – 500 passengers per hour.
- cargo flow – 50 tonnes per day.

## Major Highways

International Routes:

- E40 (Brussels - Dresden - Krakow - Rivne - Kyiv)
- E373 (Lublin - Chelm - Kovel - Sarny - Kyiv)
- E85 (Klaipeda - Vilnius - Dubno - Bucharest - Alexandroupoli)

## Motorways of national and regional importance

- H22 (Ustyluh - Lutsk - Rivne)
- H25 (Horodyshe - Rivne - Starokostiantyniv)
- P26 (Ostroh - Kremenets)
- P76 (BCP Prykladnyky - Zarichne - Dubrovytsia)
- P77 (Rivne - Tuchyn - Hoshcha)

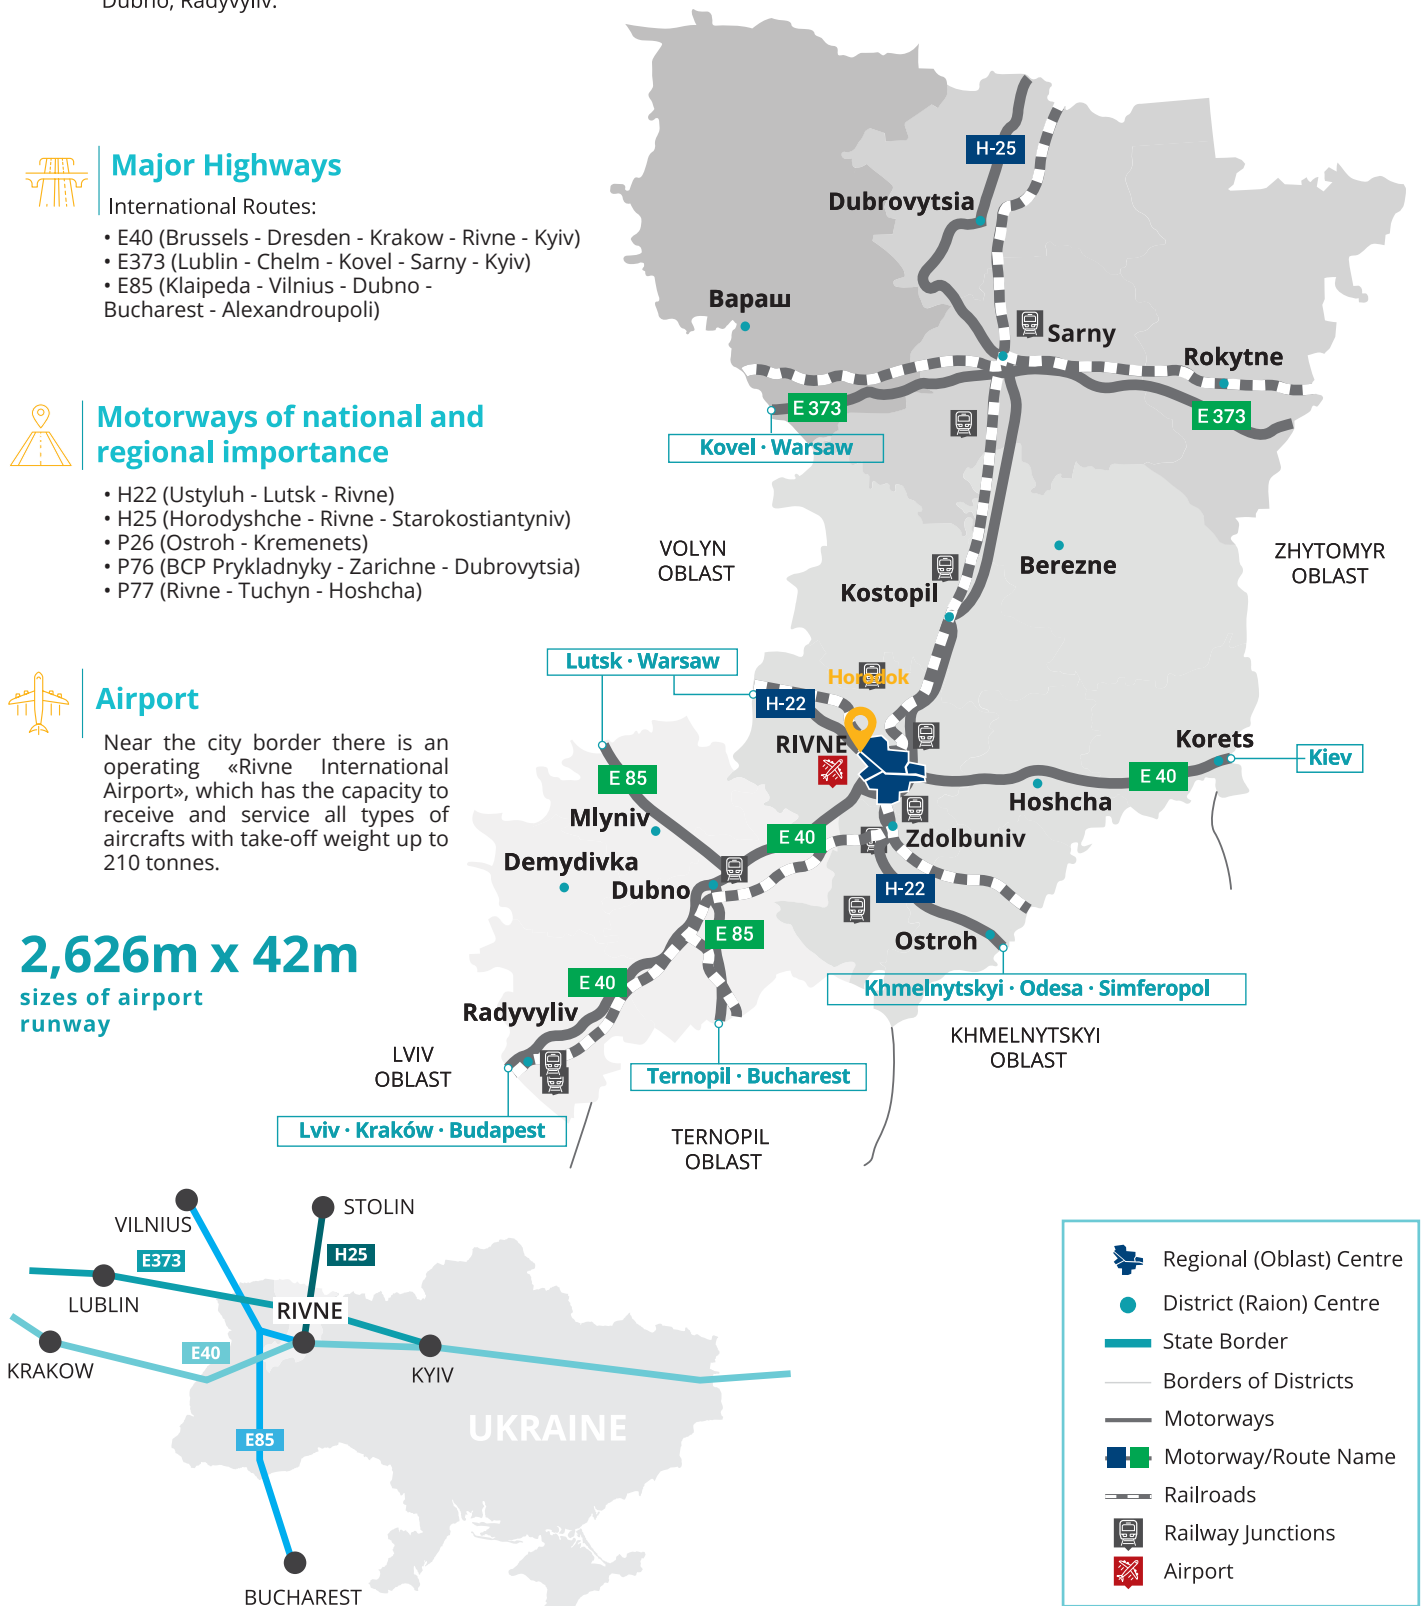

## Airport

Near the city border there is an operating «Rivne International Airport», which has the capacity to receive and service all types of aircrafts with take-off weight up to 210 tonnes.

**2,626m x 42m**

sizes of airport runway

# NATURAL RESOURCES

## 20.1 THOU. KM<sup>2</sup>

### LAND RESOURCES

**Rivne region** is located on the territory of three natural and climate zones, namely Forest steppes, Polissia and Male Polissia. The peculiarity of the location of the area is the overall flatness of its surface with a slight slope of the area from south to north.

### MINERAL RESOURCES

There are more than **600 deposits**, which represent 18 types of mineral resources:

- **Amber:**
  - the largest explored industrial mines in Ukraine
- **Basalt**
  - unique deposits of thermal insulation and facingraw materials
- **Construction sand**
  - 66 million cubic meters
- **Natural and facing stone**
  - 637 million cubic meters
  - granite, diorite, granodiorite
- **Peat**
  - 121 million tonnes, or 20% of national reserves
- Significant reserves of **mineral water**
- Perspective areas of **native copper**

### WATER RESOURCES

Water security: **2.5 times** higher than the national average across the territory of Ukraine

- **149** rivers (total length – 3,946 km), the largest rivers include Prypiat, Styr, Ikva, Horyn, Sluch, Stvyha, Lva
- **151** lakes (total area is 30,5 km<sup>2</sup>) the largest of which include Nobel (4.93 km<sup>2</sup>), Bile (4.53 km<sup>2</sup>), Ostrivske (1.056 km<sup>2</sup>)

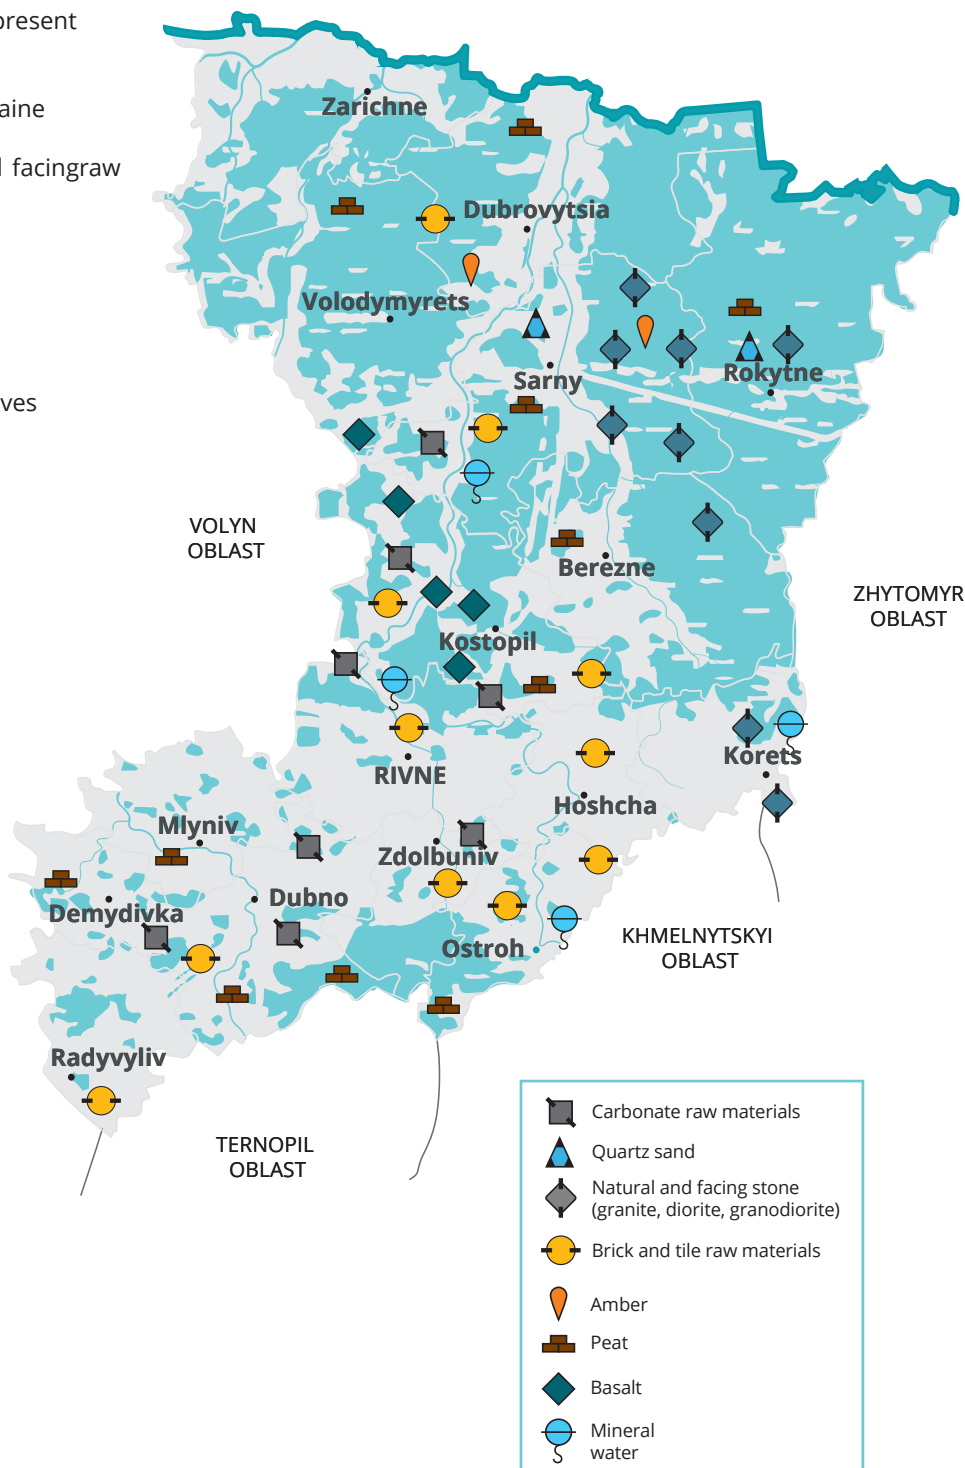

The region is rich in timber; its reserves make 112 million cubic meters.

In the north, people get large harvests of wild berries (blueberries, cranberries, currants, blueberries).

# CONSTRUCTION MATERIALS AND GLASSWARE

Production of construction materials and glassware in Rivne region is based on local raw materials; therefore its development is closely related to the development of mining industry and construction trends of the region. In addition, the region has raw materials for the production of crushed stone, cement, lime, brick and tile. There is also basalt stone suitable for the production of heat-insulating and facing materials in the region. One of the largest cement companies in Ukraine is located in the Rivne region, as well as three of the ten largest glass factories in Ukraine.

## PRODUCTION OF BASIC PRODUCTS OF CONSTRUCTION INDUSTRY

| PRODUCT TYPE                                                              | VOLUME                        |
|---------------------------------------------------------------------------|-------------------------------|
| Cement                                                                    | 1171,4 thousand tonnes        |
| Ceramic non-refractory construction brick                                 | 54,9 thousand cubic meters    |
| Blocks and bricks of cement, artificial stone or concrete                 | 0,97 thousand tonnes          |
| Tiles, slabs and similar articles of cement, concrete or artificial stone | 20,6 thousand tonnes          |
| Non-metallic construction materials                                       | 37607,5 thousand cubic meters |
| Dry construction mixes                                                    | 139,8 thousand tonnes         |
| Ready concrete solutions                                                  | 375,2 thousand tonnes         |

## EXPORTS-IMPORTS

Share in exports of glass products and building materials in the total exports of goods in the region amounted to 9,9%.

## PRODUCTION OF BASIC PRODUCTS OF CONSTRUCTION INDUSTRY

| NAME                                                                                           | ACTIVITY                                       |
|------------------------------------------------------------------------------------------------|------------------------------------------------|
| «Volyn-Cement», Branch of JSC «Dyckerhoff Cement Ukraine»                                      | Production of reinforced concrete and concrete |
| Public Joint-stock Company «Kostopilskyi zavod sklovyrobiv» («Kostopil Glassware Factory»)     | Production of glassware                        |
| Public Joint-stock Company «Verallia Ukraine»                                                  | Production of premium glassware                |
| Public Joint-stock Company «Rokytnivskyi sklianyi zavod» («Rokytni Glass Factory»)             | Production of glassware                        |
| Additional Liability Company «Rivnenskyi domobudivnyi kombinat» («Rivne House-Building Plant») | Production of cement and concrete              |

# EXPORTS-IMPORTS

The volume of exports of goods amounted to USD 744,2 million, imports amounted to USD 550,2 million.  
 The foreign trade turnover of the region in goods amounted to USD 1295,1 million.  
 The foreign trade surplus was USD 193,3 million.  
 The export/import coverage ratio was 1.4.  
 There were foreign trade operation with partners from 119 countries of the world.

The highest exports were to Poland (15,7 % of total volume), Germany (11,8%), Hungary (6,6%), France (6,4%), Romania (6,3%), Netherlands (4,6%), and Italy (4,6%).

## STRUCTURE OF EXPORTS OF GOODS

In the total volume of imports of goods, the largest receipts came from the following countries as Germany – 19,0% (USD 109,7 million), Slovakia – 13,8% (USD 79,8 million), Poland – 12,2% (USD 70,5 million), and China – 7,1% (USD 41,2 million).
